DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see applicant's remarks, filed on 12/22/2009, with respect to the rejection(s) of claims 1-33 under 35 U.S.C § 103(a) have been fully considered and are persuasive. Therefore, the rejection has been withdrawn.
2. Claims 34-43 cancelled.

Claim Rejections - 35 USC § 101

3. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

4. Claims 26-33 are rejected under 35 U.S.C. 101 because the claims are directed towards non-statutory subject matter.
5. With respect to claims 26-33, the claims are not limited to tangible embodiments. The claims recited "a computer program product, comprising: a computer storage medium". It can be reasonably interpreted that the computer program product, comprising: a computer storage medium would include embodiments including propagation media, such as carrier waves, which fail to establish a statutory category of invention. Amending the specification as well as the claim to recite "a non-transitory

computer program product, comprising: a non-transitory computer storage medium" is believed to be sufficient to overcome this rejection.

Reasons for Allowance

6. Claims 1-25 allowed over the prior art record.
7. The following is an examiner's statement of reasons for allowance:

The applicant's remarks, filed on 12/22/2009, have been carefully reviewed with updated search. Consequently, reasons for allowance of claims 1-25 are set forth in according to the applicant's remarks state on pages 11-18.
